Petition in support of the Ambulance Paramedics of British Columbia

To the Legislative Assembly of British Columbia, in Legislature Assembled:

As residents of this province, we are concerned about the deteriorating state of the BC Ambulance Service and its impact on our families and our communities.

We are concerned about the availability and level of ambulance service provided in our community, as understaffing and a lack of ambulances are causing slower response times.

We are also concerned that poor wages and working conditions make it difficult to recruit and retain skilled paramedics.
We are especially concerned that all of the above are creating unnecessary risks to the health, and even the lives, of people in our community.

Therefore we, the undersigned residents of the Province of British Columbia, petition this House to recognize and affirm support for the BC Ambulance Service and resolve to address the critical condition of the Ambulance Service, improve service levels in our communities and ensure recruitment and retention of skilled Paramedics who provide us with these vital emergency and healthcare services.
