CUPE BC POLICY MANUAL

This policy book was created following a resolution passed at the 2017 Division convention to revise the prior Policy Manual. Positions taken in resolutions, whether referring specifically to supporting or opposing something or taking action to advocate for or against something, were put into consistent and clear language to either support or oppose an issue or encourage another body to do something.

This manual is only a reference guide and does not negate, delete or eliminate any prior resolutions passed at convention.

Resolutions that were completed, that had expired or were purely actions were not transferred into this policy manual. Resolutions that speak to how our Division functions will be transferred to the Operations Manual.

The policy statements in this book reflect positions that CUPE BC has taken in the past. The date listed reflects the year a resolution was passed at our Division convention reflecting a particular position.

Policy Book Maintenance

Following each convention, the Resolutions Committee will submit a resolutions report to the Admin Committee who will review resolutions passed at the previous convention and make recommendations to the Executive Board for final approval.

If a resolution refers to a time specific event, an action that does not take a specific position on an issue or an action that is completed, it will not be transferred into this policy manual. Resolutions that create new policies will be included in the policy book as “support, oppose or encourage” on issues.
