Step forward made towards a fair deal

Your bargaining committee met with the employer today for a pivotal meeting towards K-12 school support workers getting the deal we deserve.

We are pleased to report that the BC Public School Employers' Association (BCPSEA) committee tabled a revised monetary offer. There is still considerable work to be done to get a provincial framework agreement, but your bargaining committee believes there is a path towards a fair deal. We are working with the employer on securing more dates to get back to the table. Members will be updated as soon as the next session is scheduled.

While the bargaining committee is optimistic, we are not at the finish line yet. It is very clear that the employer and the provincial government have seen that school support workers are united and we are all ready to do what it takes to get a fair deal. So, until we have that deal, we will keep the pressure on.

It has proven to be a long and tough round of bargaining, but the encouragement and support of members has been a great source of energy and inspiration for the bargaining committee.

Together we will get our deal.

Your provincial bargaining committee, with CUPEBC President Karen Ranalletta during a bargaining prep session
